INTERNSHIPS

Summer Intern -Blackbucks Pvt Ltd Hyderabad Cyber Security

📅 July 2022 – sep 2019 📍 Hyderabad,India

- Offensive and Defensive Strategies in Cyber Security,Various types of Malware Attacks,DOS,DDOS,MITM attacks.
- Working with team on Exploiting The Web Server using Vulnerability Managaement.
- Experience with Linux, NMAP tools for Information Gathering.

AWS

📅 june 2023 - Aug 2023 📍 Hyderabad,India

- Buildd 40+ Multi-Tier Architectures, worked on EC2 Instances,Virtual private Cloud,S3 Buckets,Elastic Load Balncers, AWS Lambda ,CloudWatch,RDS,Read Replica, Simple Notification Service to Real World Cloud applications.
- Worked on Project where Two EC2 instances in different cloud Regions can transfer files using Git repository.

ACHIEVEMENTS

- National Level fencing Championship under 12 age group.
- Under-17 cricket in Inter-School Region level Championship.
- College level Inter League cricket Championship Winners.

TECHNICAL SKILLS

AWS Cloud

- AWS EC2,S3,VPC,ROUTE 53,ELASTIC LOAD BALANCER,
- EBS,EFS,SNOWMOBILE,CAF,MIGRATION STRATIGIES,DYNAMODB
- RDS,CLOUDWATCH,SNS,LAMBDA,AMI,IAM.

Networking

- Cisco Packet Tracer

Cyber Security

- Nmap
- Termux
- Linux

Programming Languages

- Python(Basic)
- C++(Basic)

PERSONAL SKILLS

- Having Leadership Qualities.
- Ability to take initiative to solve problems.

HOBBIES

- Playing Cricket.

EDUCATION

B.Tech. (CSE) - 8.4 CGPA

Sagi Rama Krishnam Raju college of Engineering

📅 October 2020-2024 📍 Bhimavaram

Higher Secondary - 93.7%

Sri Chaitanya Junior College

📅 2020 📍 Vijayawada

Secondary - 80%

Kendriya Vidhyalaya

📅 C.B.S.E-2018 📍 Ongole

PROJECTS

8 Tier Architecture for Two Instances communicating through a External Git Server in Cloud

- Using Amazon EC2 instances in one VPC(ap-south-1 Mumbai) region and another VPC region(us-east-1 N.Virginia).they will transfer Files through a S3(Simple Storage Service)Bucket to Instance and after uploading the files into Instance(Virtual Server)to Git Repository.AWS Lambda Simple Notification Service(SNS) to send the notification Email to Subscriber when the user uploads a Object File into a Bucket.

Uploading a Resume in Static Web page using S3

- Using the S3(Simple Storage Service)Bucket we uploads the Source Code of HTML Resume into Bucket.By enabling the Static Web Page Hosting and Bucket Versioning.This resume will automatically uploads into a cloud through Bucket URL.

Web Server Exploitation

- Using the NMAP tool to gather the information about the Vulnerable ports in Target System.by using Metasploit Framework we can Inject Payloads from Backdoor into VNC port.

CERTIFICATIONS

- AWS Certified Cloud Practioner.
- Completed AWS Cloud Practitioner Essentials.
- Completed AWS for Beginners at UDEMY.
- Completed Introduction to Cyber Security at CISCO Networking academy.
- Completed Cyber Security Virtual Internship AICTE supported by Paloalto.
- Completed Cyber Security Essentials at CISCO Networking academy.
- Completed Learn Ethical Hacking From Scratch at UDEMY.
